

I can compare numbers up to 4 digits.

Name each comparing symbol with the correct name.

Write the number represented and then add comparison symbols.

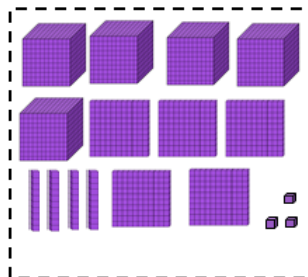

> = <

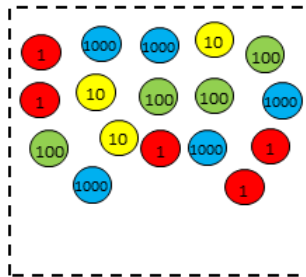

I can order numbers up to 4 digits.

Order the following in descending order.

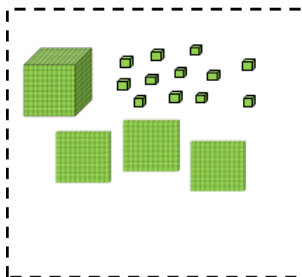

1 being the greatest and 4 being the smallest

XLV

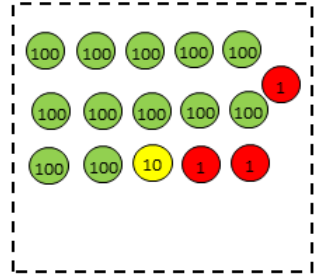

Th	H	T	O
4	0	0	0

Th	H	T	O
0	1	0	0

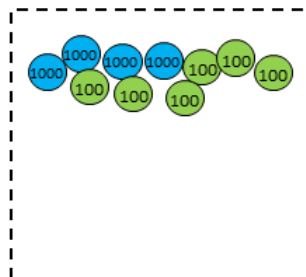

LXXIX

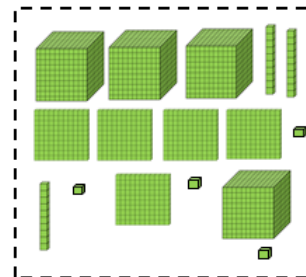

Order the following in ascending order.

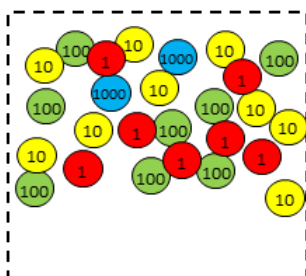

1 being the least and 4 being the greatest

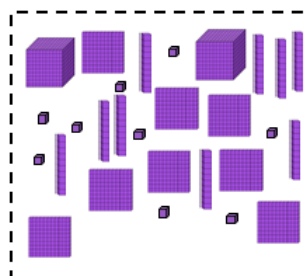

Th	H	T	O
1	0	0	0

LV

MMDL

Th	H	T	O
0	1	0	0

I can order and compare numbers up to 4 digits.

Order the following from greatest to least

six thousand, four hundred and five	6,504	6,165	6,505	6,430
---	-------	-------	-------	-------

one thousand and forty- eight	1,657	one thousand, six hundred and thirty-nine	1,939	1,693
--	-------	---	-------	-------

Order the following from the least to greatest.

six thousand, three hundred and nineteen	six thousand	6,001	6,931	6,391
---	-----------------	-------	-------	-------

2,706	four thousand and forty-five	2,606	2,540	five thousand and fifty-five
-------	---------------------------------	-------	-------	------------------------------------

Put <, = or > in each circle to make the statement correct.

less than <	equal to =	greater than >
----------------	---------------	-------------------

2,700 ○ 2,200

600 ○ 6,000

1,000 ○ 1,009

2,500 ○ 8,500

7,100 ○ 7,800

9,990 ○ 9,900

4,000
+ 200
+ 18 ○ 4,218

eight
thousand,
five hundred
and forty-
seven ○ eight
thousand,
five hundred
and seventy-
four

4,619 ○ four
thousand,
six hundred
and ninety-
one

Challenge

Spot and correct the mistakes.

$$1,029 < 2,119 < 1,921$$

$$12 \text{ hundreds} > 2,010 > 2,100$$

$$2,345 < \text{two thousand, three hundred and thirty-five}$$

$$\text{four thousands, seventeen tens} < 4,170$$

Challenge

Spot and correct the mistakes.

$$1,029 < 2,119 < 1,921$$

$$12 \text{ hundreds} > 2,010 > 2,100$$

$$2,345 < \text{two thousand, three hundred and thirty-five}$$

$$\text{four thousands, seventeen tens} < 4,170$$

Challenge

I've made a mistake ordering the numbers below.

Can you spot and explain the mistake?

smallest 3,356 4,234 4,729 924 9,326 greatest

Challenge

I've made a mistake ordering the numbers below.

Can you spot and explain the mistake?

smallest 3,356 4,234 4,729 924 9,326 greatest

Challenge

I've made a mistake ordering the numbers below.

Can you spot and explain the mistake?

smallest 3,356 4,234 4,729 924 9,326 greatest
