

I can add using the formal method

Use the formal method to find the answers to the following questions. You must use your working out.

$4,346 + 2,313 =$

$5,235 + 1,928 =$

$1,222 + 2195 =$

$2,642 + 2,627 =$

$6,349 + 2,111 =$

$834 + 9,256 =$

$7,283 + 1,222 =$

$3,205 + 3,805 =$

$3,425 + 2,191 =$

$4,194 + 97 =$

Add comparison symbols to make the number sentences correct:

> = <

$4,563 + 2,344 \bigcirc 2,124 + 3,134 \quad 3,239 + 5,411 \bigcirc 3,294 + 2,396$

$5,967 + 2,887 \bigcirc 6,812 + 2,432 \quad 5,463 + 2,779 \bigcirc 1,500 + 4,325$

$7,354 + 1,567 \bigcirc 4,435 + 5,607 \quad 5,482 + 3,246 \bigcirc 2,121 + 7,789$

Add comparison symbols to make the number sentences correct:

> = <

$$\begin{array}{r} 4,563 + 900 \\ 5,463 \end{array}$$

>

$$\begin{array}{r} 2,124 + 200 + 3,134 \\ 5,458 \end{array}$$

$$\begin{array}{r} 3,239 + 511 + 2,000 \\ 5,750 \end{array}$$

>

$$\begin{array}{r} 3,294 + 2,396 \\ 5,690 \end{array}$$

$$\begin{array}{r} 5,967 + 2,887 \\ 8,854 \end{array}$$

<

$$\begin{array}{r} 6,812 + 3,000 + 2,000 \\ 11,812 \end{array}$$

$$\begin{array}{r} 563 + 2,779 \\ 3,342 \end{array}$$

>

$$\begin{array}{r} 1,500 + 400 + 400 \\ 2,300 \end{array}$$

$$\begin{array}{r} 7,000 + 1,567 \\ 8,567 \end{array}$$

=

$$\begin{array}{r} 8,000 + 560 + 7 \\ 8,567 \end{array}$$

$$\begin{array}{r} 2,000 + 5,000 + 4,000 \\ 11,000 \end{array}$$

<

$$\begin{array}{r} 4,121 + 7,789 \\ 11,910 \end{array}$$

Some calculations I could see were greater than the other by just looking at them- such as $5,967 + 2,887$ is definitely going to be smaller than $6,812 + 3,000 + 2,000$. I didn't have to use column addition to work out $2,000 + 5,000 + 4,000$.

Add comparison symbols to make the number sentences correct:

> = <

$$\begin{array}{r} 4,563 + 900 \\ 5,463 \end{array}$$
