

I can subtract with one exchange.

Use the place value grids to help you subtract the following numbers. Remember to exchange where needed and show your working out in your book.

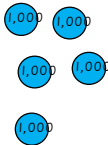

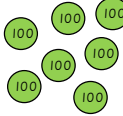

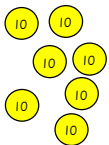

$$2,643 - 1,831 = \underline{\hspace{2cm}}$$

Th	H	T	O
			

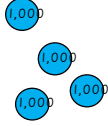

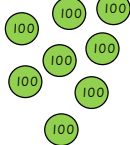

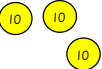

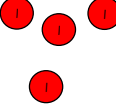

$$7,045 - 1,009 = \underline{\hspace{2cm}}$$

Th	H	T	O
			

$$5,772 - 2,225 = \underline{\hspace{2cm}}$$

Th	H	T	O
			

$$4,834 - 3,912 = \underline{\hspace{2cm}}$$

Th	H	T	O
			

I can subtract using the formal method.

Identify the number shown by the place value counters and then subtract the number given.

Subtract 2,632

Subtract 3,622

Subtract 1,204

Subtract 7,015

Challenge

Work out the missing digits to complete the formal method.

	H	T	O
	5	?	3
-	2	1	8
	3	1	5
