“Children’s Attendance Champions Newsletter”

Edition three: How does being late affect attendance?

(March 2023)

Attendance News

We are focusing on lateness and want to help everyone understand the impact it has on our education.

Our school day starts at 8:40am with spellings and then handwriting practice.

If we are late every day, we miss out on this and can’t catch up. Have a look at the picture below to see the impact lateness has on our learning.

When we used to be late to school, we would feel different, walking in to class when it had already started, and we didn’t know what we were learning. It can be embarrassing, as everyone turns to look and see us coming in late.

Our register closes at 9am, so if you miss your mark, you are classed as absent. This really effects our attendance.

Top tips for this month

Connie’s top tip

I have started setting more than one alarm, so I don’t oversleep. I make sure it is on a loud setting so I can’t ignore it. My things are all ready, in my room, so I can get up and out.

Emily’s top tip

On a night, I get my bag ready so I have all of my things organised. I have my clothes out ready too. A good night’s sleep helps you relax and wake up prepared to learn.

Monthly Attendance (February 2023)

Year group	%
Nursery	95%
Reception	95.5%
Year 1	96.4%
Year 2	97.4%
Year 3	96.5%
Year 4	97.2%
Year 5	97.1%
Year 6	92.9%
Whole school	96%

WELL DONE to Year 2 for being the highest attendance this month.
